

The new Benchmark:
The X-SLIM from PFERD

The New Cutting Experience

TRUST BLUE

The X-SLIM from PFERD:
Let yourself be impressed by
the disc for extremely thin cuts.

X-SLIM – The Cutting Experience

X-SLIM from PFERD: The disc that impresses.

There are cut-off wheels and there's the **X-SLIM** – the solution from PFERD for extremely fine cuts. The **thinnest straight cut-off wheel** is conquering more and more workbenches with **high performance** and a **unique cutting experience**.

„I'm surprised: the X-SLIM goes through sheet metal like a hot knife through butter...“

(Thorsten Siebert, metalworker)

„With the X-SLIM I can cut with fine precision and with minimal burr formation...“

(Dirk Wenke, industrial mechanic)

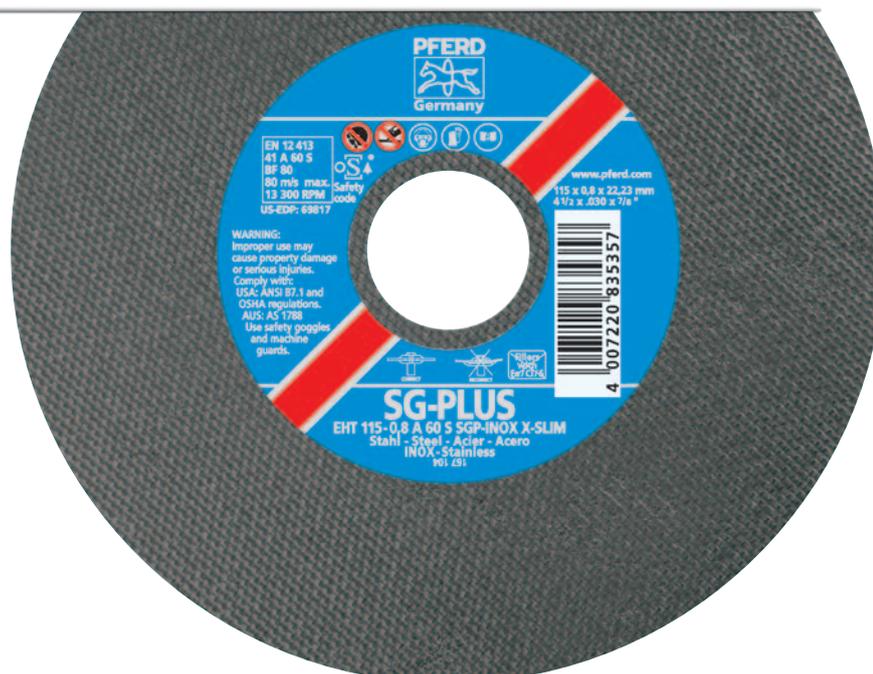

„I never would have thought that such a thin disc can last so long...“

(Frank Weber, metalworker)

X-SLIM is convincing more and more users. Convince yourself:

- The thinnest straight cut-off wheel for extremely fine cuts.
- Low burr, clean cuts.
- Straight design with no bends for greater immersion depth.
- Quick and cool cutting with no thermal discoloration.
- Low vibration, comfortable and ergonomic.
- High cutting performance with lowest contact pressure.
- Extremely robust and steady.
- Reliable quality – the same slimness, disc for disc.

Experience X-SLIM and rely on tangibly better products and consistent quality. Let us advise you and decide in favour of the X-SLIM.

X-SLIM for thin, quick, deep, cool and **low burr** cuts.

It's worth comparing! A 1 mm thick piece of sheet metal **cannot** be pushed into an X-SLIM cut. Cuts by other 0.8 mm discs can be considerably wider.

Feel the difference. You can rely on consistent quality with PFERD – disc for disc.

Thin disc, great expertise

PFERD has been offering an extensive range of tools for machining surfaces and cutting materials for more than 100 years. Lots of innovations on the market are based on the intensive research and development work from PFERD. All the tools have been proven in practice. The key to the successful use of PFERD tools lies in the right combination

of tool, application, material and drive type – always with the aim of making work more precise, easier, faster and more ergonomic. The individual and targeted advice offered by PFERD and the qualified PFERD distributors is unique within the industry and sets standards for ergonomic work and optimum economic results.

The new benchmark: The X-SLIM from PFERD

Special Line SG-PLUS

INOX
Hard type - hardness grade S

Extremely sleek high-power tool in S-INOX hardness.

New PFERD version with ultimate cutting performance and unrivaled tool life:

- extremely cool,
- very fast,
- especially convenient,
- supremely low-burr.

Abrasive: Aluminium oxide A

Manufactured without addition of ferrous, sulphurous and chlorinated fillers.

Workpiece materials:

Stainless steel (INOX)

Application:

Cutting thin-walled sheets and profiles

Recommendation for use:

The X-SLIM produces a convincing cutting performance even on low-output drive machines.

The X-SLIM from PFERD meets all the safety requirements of EN 12413.

Every packaging unit contains free paper washers to ensure power transmissions where older clamping flanges are used.
